Partnering with Today's Entrepreneurs to Create Successful Technology Companies of Tomorrow

Develops New Point-of-Sale Integration Capability

A major luxury retailer has begun trials of IntelliVid's new intelligent point-of-sale video interface module. It targets employee theft, the cause of approximately half of the \$37.4 billion retailers lose annually to "shrink," making it a top priority for them to address. The retailer testing this new feature can instantly view and evaluate employees who are conducting atypical transactions, helping to identify internal theft incidents and take appropriate action. IntelliVid's product was recently featured on CNBC and NBC and can be seen at:

Wireless Applications for Financial Services

Users Conference Successful

Pyxis Mobile recently held their first annual mPlatform Users Conference which was attended by over 120 financial services professionals from over 35 companies. Pyxis Mobile created an educationally and socially rewarding experience for those that attended by bringing together investment professionals who have implemented mobility solutions in order to address their interests, showcase the latest mobility opportunities, and gauge industry direction and trends for this diverse community. www.pyxismobile.com

perfecting the art of network security

Record Quarter

Top Layer Networks, a global leader for high performance network intrusion prevention solutions, had record revenues in Q3 which was also the most profitable quarter in the Company's history. Q3 also included a significant growth milestone for the Company—the 1000th customer. Continuing their string of trade journal accolades, Top Layer Networks' IPS 5500 intrusion prevention solution received an Editor's Choice Award for 2006 and "five star" classification in *Communications Week*, as well as recognition from *Network World* as one of the top IPS solutions on the market www.toplayer.com

New Executive Joins

SOFTRAX named Jay Waldron VP of Sales and Business Development. Jay will guide the Company into rapidly expanding markets for solutions that address revenue recognition, complex billing, financial operations, revenue reporting, forecasting and compliance. Previously, Jay held roles as VP of Mid-Market solutions at SAP; President and CEO of Knowledge Impact; and VP of International Sales then President and Chief Operating Officer at Applix.
