May 2009

UPDATE

Partnering with Today's Entrepreneurs to Create Successful Technology Companies of Tomorrow

Free Mobile Application Design Help

Pyxis Mobile is now offering its Mobile Application Design Workshop for free to qualified enterprises. The workshop is a free program designed to help a firm create a mobile business application in under 24 hours that will operate on multiple devices including BlackBerry, Windows Mobile, Symbian devices, and iPhone. For more information, contact sales@pyxismobile.com or visit www.pyxismobile.com

Apparent Launches PathView

Apparent Networks recently launched PathView, a next-generation network performance management tool. Targeted at network engineers, PathView is a single-user version of the Company's unique AppCritical enterprise solution. The product lets engineers troubleshoot, monitor and report on network performance more quickly and effectively. Available as a free trial, and with a low starting price, PathView is off to a very strong start with over 500 downloads in its first month on the market. www.apparentnetworks.com

Reducing Healthcare Costs for Small Businesses

HighRoads recently launched QuickSPD, an intuitive online service for health insurance brokers that quickly develops ERISA compliant summary plan descriptions (SPD) for small and midsize businesses. The automated self-serve solution empowers brokers to create and store SPDs for their customers without the painstaking, manual processes and legal fees that traditionally cost brokerage firms hours of lost productivity and money. www.quickspd.com www.highroads.com

Kentucky Chooses Envista

The Northern Kentucky Area Planning Commission (NKAPC) is deploying Envista's map-driven application to coordinate hundreds of roadway and utility projects in two counties and could grow to include more than 30 Kentucky cities. Envista optimizes the construction planning process, reduces street cuts, and lessens the impact of road work on the public. Envista is a map-based, Software as a Service that allows utilities, municipalities, and government agencies to coordinate infrastructure construction and maintenance project schedules online. www.envista.com

Major Advertisers Choose OwnerIQ Targeting

OwnerIQ signed two major new advertiser clients, Energizer and STARZ and renewed Sears for a third campaign; the value of each Sears order has more than doubled the previous order. In addition, OwnerIQ has successfully launched eight Owner Retargeting programs, enabling consumer product manufacturers to deliver online advertising messages to their customers after they leave their site. www.owneriq.net

Egan-Managed Capital is always looking for great entrepreneurs and investors to partner with so if you know of any information technology companies in the New England area looking for Series A or Series B funding please send them our way.

Sincerely,

The Egan-Managed Capital Team
