Partnering with Today's Entrepreneurs to Create Successful Technology Companies of Tomorrow

Valuable Data for HR

HighRoads has launched The Lab™, the industry's first real-time, unbiased HR benchmarking tool designed to put the power of data and knowledge into the hands of HR decision makers. Flexible and easy-to-use, it delivers timely, comprehensive data providing insight into how your employee benefits package matches up—in terms of coverage, cost and competitiveness. With The Lab, companies will have the knowledge to design better plans that meet the needs of employees and position the company to negotiate the best pricing. www.highroads.com

Pyxis Mobile 6.0 Release

Pyxis Mobile will release Pyxis Mobile 6.0, the latest version of its mobile application platform for the Financial Services industry, on April 25. The latest release features Application Studio, a graphical platform within which firms may design screens, menus, reports, charts, dashboards and other features using an intuitive drag-and-drop interface. www.pyxismobile.com

NMS Acquires Groove Mobile

LiveWire Mobile, Inc., a subsidiary of NMS Communications Corporation and a global provider of managed personalization services for mobile operators, announced on March 18 that they acquired Groove Mobile, Inc. The acquisition will enable LiveWire Mobile to meet operators' growing demand for a portfolio of managed services, including ringback tones, ringtones, full-track music and video downloads, delivered through an integrated storefront. "Groove Mobile's services directly complement and enhance LiveWire Mobile's offerings today," said Eric Giler, Chairman and CEO, Groove Mobile. "With our combined capabilities, we are now in a unique position to deliver what operators and subscribers have been asking for—an integrated personalization offering." www.groovemobile.com

Record Growth

During the first quarter, Whaleback continued a record-setting growth rate by winning its largest-ever new customer (440 VoIP stations across 15 sites) on the way to recording its highest level of quarterly bookings and customer activations in its 3-year history. The Company also released a new version of its IP-PBX and Voice Quality Management Software (the Egg Rock Release) adding new VoIP security and high availability features to its CrystalBlue Voice Service. Industry recognition came in the form of the *IP Telephony* 2007 "Product of the Year" award along with a cover story featured in its January issue. www.whalebacksystems.com
