

A Special Thank You

We'd like to thank everyone who reached out to us after the recent death of our eponymous founder, Richard "Dick" Egan. It has been a difficult time for the Egan Family and for all of us at Egan-Managed Capital. We found your many cards, letters, emails, and phone calls to be a source of comfort and strength. Dick Egan set us on our course more than 10 years ago and we are honored to be part of his legacy.

Latest Data Shows Deductibles, Co-pays on the Rise

New research data from The Lab®, HighRoads' real-time benefits benchmarking tool, shows key areas where employers are working to reduce their health care costs. Top areas that have changed between 2008 and 2009 include increases in copays, increases in family deductibles and reductions in

administrative fees for Health Savings Accounts (HSAs).

The Lab, which contains design and related cost information for over 5,000 medical plans, is used by plan managers to benchmark medical programs at a granular level in real time. For more information, visit: <http://newsroom.highroads.com/>

Patents Bolster Market Leading Position

OnePIN continues to broaden its market leading position in the mobile social address book space with the announcement of two new patents for the Company's innovative solutions. These patents include one-click contact exchange functionality on a mobile device's operating system. This intellectual property creates significant barriers to entry as well as strategic value for players in the Web 2.0 and mobile ecosystem. OnePIN continues to deploy its solutions with mobile operators around the world, transforming calls and SMS into social connections. www.onepin.com

New Wireless Headset Provides Crystal Clear Communication in Noisy Environments

VXI expands its popular BlueParrott® portfolio by adding the *Xpressway*™ wireless headset to its product line. Designed for high-noise environments, the *Xpressway* is compatible with most Bluetooth®-enabled mobile phones. Advanced noise-canceling technologies block out city traffic, road noise and the roar of an 18 wheeler's engine, ensuring crystal clear conversations.

The *Xpressway* will be available at Love's, Flying J, TA and other truck stops across NA starting in Q4 2009. www.vxicorp.com

Sacramento, California Signs Up for Envista

The City of Sacramento has selected Envista to provide a web-based solution for coordination of road-related projects planned by the City and by utility companies. California's state capital, Sacramento, chose Envista over continued development of custom software because it offered substantially greater value for taxpayer dollars. Envista is a map-based, Software as a Service that allows utilities, municipalities, and government agencies to coordinate infrastructure construction and maintenance project schedules online. www.envista.com

Egan-Managed Capital is always looking for great entrepreneurs and investors with whom to partner. Please send any information technology companies in the New England area looking for Series A or Series B funding our way.

Sincerely,

The Egan-Managed Capital Team
