Partnering with Today's Entrepreneurs to Create Successful Technology Companies of Tomorrow

Enhanced Products

Softrax released the newest versions of its comprehensive revenue management and billing solutions. These innovative products automate a broad set of critical financial processes including: contract management, pricing, billing, revenue allocations and deferrals, expense accounting and renewals. Softrax Contrax is further optimized for the more complex requirements of companies with subscription and usage-based business models. www.softrax.com

New Product Named Best Buy

Top Layer Network's new Intrusion Prevention System family, the IPS 5500 E-Series, has received *SC Magazine's* "Best Buy" status based on a comparative review of the top intrusion prevention solutions on the market. In a group test that included NitroSecurity, Inc., CounterSnipe Technologies, IBM-ISS, Reflex Security, Security Metrics and RadWare, Top Layer received the highest marks of all participants and was given the top honor of "Best Buy" for its ease of use, full features and overall performance. www.toplayer.com

Expands Technology Lead Over Competition

In addition to a growing customer pipeline, IntelliVid is excited to announce the issuance in August of patent protection for its Computer-Aided-Tracking (CAT) algorithms. Using CAT, IntelliVid is the only Video Intelligence Software provider who can track suspects and customers across cameras in retail stores. IntelliVid's Video Investigator™ allows retailers to quickly and easily extract the business intelligence they need from in-store video. www.intellivid.com
