Partnering with Today's Entrepreneurs to Create Successful Technology Companies of Tomorrow

NEW INVESTMENT: Social Networking For Foreign Exchange Traders

We joined with North Bridge Venture Partners in an \$8 million financing for Currensee, the first Forex trading social network that connects traders from around the world based on their real-time trades. Our partner Travis Connors has joined the Currensee Board. Currensee execs just returned from the International Traders Expo in NYC, where Currensee announced its new *Trade Leaders* program. It was enthusiastically received, and the team presented an educational webinar with trader and commentator Bob Iaccino. *Trade Leaders* allows Currensee users to leverage the strategies and expertise of successful Forex traders. www.currensee.com

Flower Wholesaler Deploys New Storefront using Nexaweb

European flower wholesaler, Waterdrinker Aalsmeer, used Nexaweb to create a new Web 2.0 storefront for retailers. The modernization project integrated disparate applications, eliminated human intervention, and provided real-time access to inventory, pricing, and delivery schedules. Waterdrinker reports that the Nexaweb-based system has greatly improved service and reduced costs by eliminating order entry errors and making order processing more automated. For the next project phase, Waterdrinker Aalsmeer will allow partners to embed re-branded online B2C storefronts into their respective websites. www.nexaweb.com

Global Broker Willis Group Partners with HighRoads

Willis Group Holdings PLC, a leading global Insurance broker, has selected HighRoads' Global Benefits Technology to collect and manage employee benefits data for its global clients. HighRoads will provide Willis with a central repository for benefits information, including country-specific policies, benchmarking and financial data. Willis also has selected the HighRoads' Global Benefits Technology platform to support benefits management for its own 20,000 employees. www.highroads.com

Pyxis Mobile Powers TD AmeriTrade Mobile Application

TD AmeriTrade has chosen Pyxis Mobile to deploy myNational™, a real-time cross-platform mobile application for TD AMERITRADE Institutional's 2010 National Conference. Pyxis Mobile's Configure Once, Run Anywhere™ enterprise platform allows conference organizers to reach 88% of smartphones with one configuration. "With Pyxis Mobile everyone can have something that is intuitive and easy-to-use, and that will enrich their conference experience", according to Katrina Kent, head of events for TD AmeriTrade. www.pyxismobile.com

uTest Adds Load Testing Capability

uTest recently announced the launch of its load testing services for web applications and sites. The company leverages its community of 23,000+ professional testers plus leading synthetic load testing tools to help customers confirm that their web apps work under peak levels of usage. Customers get the benefit of sophisticated load testing tools and experienced testers without bringing on specialized testing staff. With 24x7 access to bug reports, load testing results, and other metrics, customers can monitor and measure application performance under real-world conditions. www.utest.com/load-testing

Second Turkish Mobile Operator Launches CallerXchange

AVEA Turkey successfully launched OnePIN's CallerXchange mobile social address book solution. AVEA is the second mobile operator to launch CallerXchange in Turkey, and now over 30 million subscribers can transform phone calls into social connections. The performance of the service continues to exceed expectations, generating significant voice and data revenue increases for both Turkish operators while increasing the social value of mobile phonebooks. www.onepin.com

Austin, Texas Chooses Envista

The City of Austin is the first municipality in Texas to adopt Envista's map-driven Software-as-a-Service for infrastructure project coordination. City departments will use Envista to collaborate with the City of Austin Water Utility and Austin Energy, the 9th largest community-owned electric utility in the US. With a current population of over three-quarters of a million residents, Austin is the fifth capital city in North America to select Envista. www.envista.com

Egan-Managed Capital is always looking for great entrepreneurs and investors with whom to partner. Please send any information technology companies in the New England area looking for Series A or Series B funding our way.

Sincerely,

The Egan-Managed Capital Team
