## Charts Course for Future Growth

Two months after moving into new headquarters in Portsmouth, NH, Whaleback Systems experienced record growth during the first quarter of fiscal 2007. Whaleback, a managed service provider of business-class IP telephony systems, has been busy adding office space, employees, and most importantly new customers for its unique service offering. In just one quarter, the Company has doubled the number of phones and customer sites installed as well as the total contract value of its service revenue. When compared to the same period last year, Whaleback has increased its business more than twelve-fold in these same categories. [www.whalebacksystems.com](http://www.whalebacksystems.com)

## Aflac Japan and Ameripath Deploy Nexaweb

Aflac Japan, one of the country's largest foreign insurers deployed a comprehensive Web-based Insurance Premium Calculation System application that combines legacy inquiry, Internet-mediated, and stand-alone applications using Nexaweb Enterprise Web 2.0. Likewise, Ameripath, a leading national provider of physician-based pathology and diagnostic services, used Nexaweb to deploy "Pathway," a new, browser-based laboratory information management application that significantly improves end user responsiveness and access to critical patient data.
